

Heavy-Duty Polypropylene Strapping Kit SEP48HD*

Self-contained kit — everything you need in one self-dispensing box — completely portable.

Kit includes a ½" x 7200' heavy-duty (500 lb) coil of strapping, 1000 each ½" metal seals, and a tensioner and crimper.

*You can also purchase all items separately:

SSP508HD ½" x 7200' coil, 500 lb
tensile strength
SMS2 ½" metal seals (1000/cs)
S1100T Tensioner
S3300C Crimper

Replace steel strapping for:

- Dumping half loads of lumber
- Strapping windows and doors
- Banding trusses, pipes, ductwork, firewood
- Controlling equipment and components
from one job site to another
- Moving loads of lumber with a forklift

Benefits over steel:

- Save \$\$\$'s — much less expensive than steel
- Much lighter and more flexible to use
- Safer to apply and remove
- Protects — will not cut into lumber or other materials
